

LUXEFINDER

Knife maker Bison has partnered with noted straight razor artisan Max Sprecher to create an heirloom-quality razor that is hand-crafted in the US. \$895, bisonmade.com

ABOUTFACE

HARDNESS

The hefty 1/4 hollow ground blade is forged in carbon steel of a hardness that allows it to hold a sharp edge. The attached handle is high-density, uni-plate carbon fiber.

SOFTNESS

Horween's Chromexcel leather is used to make the included razor sleeve. Special top-stitching complements the razor's solid brass pins.
